

CUTTING COMPOUND 3002

Compound

body shop safe

Description: **CUTTING COMPOUND** is a silicone-free compound with medium to heavy micro fine abrasives which remove up to 600-1000 grit sanding scratches from BC/CC surfaces. **CUTTING COMPOUND** utilizes chemical and mechanical cleaners combine to remove sanding marks and paint imperfections. Contains no wax or silicone.

§ **Features:**

- No wax, silicone, or fillers
- Aggressive abrasives permit use on both new and old paints
- Slower drying time

§ **Benefits:**

- Cuts clear and with no to low residue
- Cleans like heavier silica compounds
- Allows longer buffing time

§ **Use for:**

- Removing wet/dry (600-1000) scratches and oxidation
- Body shop application for either whole car or spot panels
- Removing acid rain and other chemical etching

§ **How to use:**

- Consult MSDS for complete safety information before using.
- Ensure surface is cool to the touch
- Using an applicator pad, apply a small amount of product directly on the painted surface.
- While the product is wet, buff a 2' x 2' area with a high speed buffer and a cutting pad. Keep the pad flat on the painted surface and buff until product dry
- Apply wax or paint sealant to protect the restored finish

§ **Tech Tip:**

- Follow repair or cleaning with a quality **Distinctive Details** polish or wax.
