

ACID RAIN CREAM

3004

Correction Compound

body shop safe

Description: **ACID RAIN BUFFING CREAM** is a machine cleaner formulated for the safe and effective repair of finishes damaged by acid rain, fallout, water spotting, chemical etching and other paint irregularities. **ACID RAIN BUFFING CREAM** utilizes micro fine abrasives to provide a fast cut and then breaks down to a fine polishing agent. Contains no wax or silicone.

§ **Features:**

- No wax or silicone
- Aggressive abrasives
- Contains polishing agents

§ **Benefits:**

- Body shop safe
- Quick cut helps repair damaged areas
- Prepares surface for final wax protection

§ **Use for:**

- Acid rain damage and water spots
- Removing paint imperfections including orange peel
- Removing oxidation from painted surfaces

§ **How to use:**

- Consult MSDS for complete safety information before using.
- Ensure surface is cool to the touch
- Using an applicator pad, apply a small amount of product directly on the painted surface.
- While the product is wet, buff a 2' x 2' area with a high speed buffer and a cutting pad. Keep the pad flat on the painted surface and buff until product dry
- Apply wax or paint sealant to protect the restored finish

§ **Tech Tip:**

- Neutralize the acid by applying a solution of all purpose cleaner. Allow the solution to dwell for one minute, rinse with cool water and dry.
