

DISTINCTIVE DETAILS RECOMMENDS:

**3207 HEAVY COMPOUND**  
 Very aggressive compound. Maintains a high rate of cut with constant pressure. Removes heavy scratches and oxidation with minimal swirling and buffing residue.

**3208 MEDIUM COMPOUND**  
 Micro cutting agents for removal of 1200 - 2000 sand scratches in all automotive paints. Polishes the finish to a smooth high gloss without swirls and little clean up.

**3209 LIGHT COMPOUND**  
 Mild cutting and polishing agents. Removes scratches and oxidation. Polishes to a swirl-free high gloss, smooth finish with little or no clean up.

**3210 S.O.S. SWIRL OXIDATION SCRATCH**  
 S.O.S. removes and polishes away surface-marring problems, improves the surface and produces a swirl free deep shine. S.O.S. removes swirls and spiderwebs.

**3211 ULTRA GLAZE**  
 Foam pad glaze formulated for dark and light colored paints - easier detailing and clean-up produces a deep luster finish. Will not streak, smear, or cake up on buffing pads.

**3215 HIGH GLOSS**  
 Maintains a show car quality finish or bring a gloss back to paint that needs a little help. Intensifies luster on difficult-to-maintain black and red paint. Can also be applied by hand.

*Advantage* is a premium line of reconditioning and detailing products developed to maximize performance with minimal effort and cleanup. The *Advantage* product line is one of **DISTINCTIVE DETAILS** most technologically advanced products ever. With a commitment to quality, the *Advantage* products provide better overall durability, ease of use and a focused direction for better overall detailing and reconditioning and for the optimum finish. *Advantage* consists of six specialty products designed to enhance the appearance of any vehicle. These six products are color-matched to the correct colored buffing pad to ensure outstanding performance and appearance. Three compounds, a true swirl-oxidation-scratch remover, a polish glaze for foam or wool pads, and a final finish polish allow you to match the product and pad for the best finish. All *Advantage* products are silicone-free and safe for any body shop or new car dealer location.
